a **Earlier recipe: the 16 class means sit on a 4-cube**

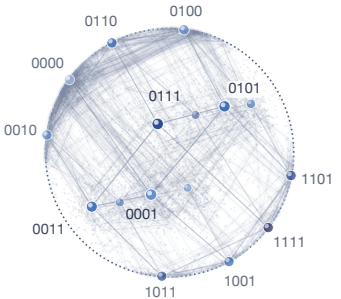

b **With equivalence training, Lean states fall into the 960 Nerode classes**

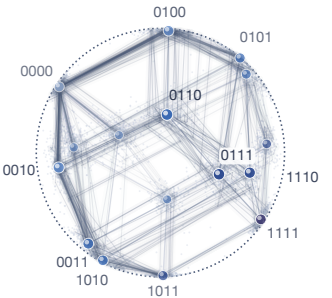

c **Only the earlier recipe lays every state on that cube; the others tangle or drift**

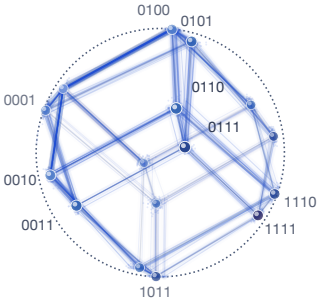

ordinary training
exact at 1,024: 0.029; norm grows 9-fold

ordinary + fixed norm
exact at 1,024: 0.764

next-state + fixed norm
exact at 1,024: 0.965

earlier recipe + fixed norm
exact at 1,024: 1.000
