
a
Next-token loss: the deepest well is the inexact one
next-state training
loss 1 × 10−4, exact 1.00
ordinary training
loss 2 × 10−5, exact 0.31
earlier recipe
loss 6 × 10−5, exact 1.00
b
Earlier recipe's objective: that well is lifted; the exact wells remain
next-state training
objective 3 × 10−3, exact 1.00
ordinary training
objective 1.2, exact 0.31
earlier recipe
objective 5 × 10−4, exact 1.00
exact on 256 chains after 1,024 rewrites (≥ 0.99)
height: log10 of the term, one scale for both; contours every half decade
Lean rewrite chains, seed 0
